EUREKA

100 YEARS OF EXCELLENCE

Eureka have been market leaders in the design and manufacture of contemporary and innovative coffee grinders since 1920.

Founded in Florence by Aurelio Conti as a manufacturer of espresso grinders, the Eureka brand quickly established a reputation for excellence. Nowadays Eureka has established itself as one of the most cutting-edge manufacturers within the worldwide coffee grinder industry.

Production of all Eureka grinders remains in Florence, adhering to their 100% 'Made in Florence' tag. The company mission is to provide first-class customer service, via market leading competitive products that combine design, ground-breaking technology and innovation.

Eureka offer two distinct ranges of grinders; the classic Eureka 1920 range and the new range of Eureka Oro grinders, introduced to celebrate 100 years of Eureka and equipped with the latest state of the art technology.

Eureka grinders are available at:
jesuk.com/eureka-grinders

CONTENTS BY DAILY OUTPUT

A quick reference guide to our collection of Eureka grinders, sorted by their maximum daily output in kilos. Alongside each grinder you will find the suggested use for that model (espresso / filter / all-purpose / retail). For more spec and key feature detail of any grinder, check the page number next to the model.

ACCESSORIES QUICK GUIDE

Eureka offer a range of accessories that complement their fantastic grinders. The selection includes knock drawers, blow-up hoppers, hand brew cups and more.

Learn more about each of the accessories below and look out for our handy compatibility guide on each page to discover which accessories suit each grinder.

	Product	Colour & Size	Description
	Mignon Mat Kit	Black	This handy Eureka Mignon Mat Kit is ideal for protecting your kitchen or coffee shop counter-top when tamping and for keeping your grinder and tamping set up neat and tidy. Features indents perfectly sized for Eureka Mignon grinders and for tamping, plus an integrated tamping stand and handy cleaning brush.
	Mignon Knock Drawer	Silver	Keep your kitchen or coffee shop counters clean and easily dispose of used coffee grounds with the slim, sturdy and stylish Eureka Mignon Knock Drawer. The perfect companion to any of Eureka's excellent Mignon grinders, under which it is designed to sit.
	Blow Up Hopper - Mignon	Smoky Grey or Transparent 250g	Reduce waste and improve coffee flavour with Eureka blow up hoppers. Simply give a big push on the lid of the hopper after each dose is ground to create an air flow in the grinding chamber. This blows out any left-over coffee grounds which would otherwise not only go to waste but can go stale negatively affecting the taste of future cups of coffee. At the end of the day give three big pushes on the lid as part of the grinder cleaning process.
	Blow Up Hopper - Non-Mignon	Dark Grey or Transparent 300g or 1.4kg	Mignon version fits: <i>All Eureka Mignon models.</i> Non-Mignon version fits: <i>Atom, Olympus, Zenith & Drogheria models.</i>
	Mignon Single Dose Replacement Blow Bellow	Black	A simple replacement bellow for Eureka Single Dose Grinders Blow Up Hoppers.
	Mignon Single Dose Hopper	Transparent 45g	This extremely compact single dose hopper from Eureka is perfect for baristas looking to grind single shots of coffee grounds quickly and easily. An excellent space saver. Fits all grinders in Eureka's Mignon range.
	Handbrew Cup	Silver 80g	Stylish and simple, this branded stainless steel Hand brew Cup from Eureka is a handy tool for use when crafting delicious espresso, pour over and filter coffee. Simply place the cup on a set of scales and weigh out the correct amount of beans. After pouring your coffee beans into the hopper, grind fresh grounds directly into the cup before transferring to your Hario V60, Aeropress, Chemex, or preferred brewing method.
	Mignon Libra Dosing Funnel	Chrome	The perfect tool to grind large shots, with no waste. Because of its shape and adaptability to filterholders with a diameter between 58.3 and 57 mm, you can grind your extra-large shot without losing coffee grounds. Magnets embedded in the funnel base, ensure stability in the filterholder. <i>*Supplied as standard with the Mignon Libra.</i>

PROMETHEUS

PROFESSIONAL

ESPRESSO

An unparalleled grinder for the busiest commercial venues and baristas who demand only the best, offering up to 20kg daily output, plus a multitude of excellent features.

TECHNICAL SPEC	
Brand	Eureka Oro
Type	On-Demand
Hopper Size (kg)	1.2
Colours	Black Silver
Burrs	
Type	Flat
Diameter (mm)	85
Material	Diamond inside

Weight (kg)	23

FEATURES

- **Touch Display with 3 programmable doses**
"Extra Dose" mode and maintenance alerts.
- **New ELR System**
With the sloped grinding chamber providing extremely low retention.
- **Automatic filterholder recognition**
Removing the need for manual dose selection.
- **Electronic adjustment of burrs positioning**
Directly adjustable from both the touch display and regulation dial.
- **Integrated IoT connectivity**
With specific apps dedicated to roasters and users, ensuring constant grinder monitoring and performance measurement.
- **Cool grinder**
Temperature monitoring of the grinding chamber combined with the forced cooling system grants consistent performance over time.
- **Silent Technology**
Reducing the grind noise vs comparable grinders.
- **"High Speed" grind dispersion**
Special engine-burr set optimises the dispensing speed while preserving the optimum temperature of freshly ground coffee.
- **"High Speed" maintenance of burrs**
Without losing the grind setting.
- **All-purpose fork for "Hands-Free" operation**
Adjustable in height and compatible with any type of filterholder (including naked).
- **Bean hopper security system**
- **Diamond inside burrs**
Guarantees a superior wear resistance and duration, preserves optimal burr sharpness longer than any other burr material.

MYTHOS PLUS

PROFESSIONAL

ESPRESSO

With a huge 3.2kg hopper and output speed of up to 5.5g of espresso grounds per second, the Eureka MYTHOS PLUS is perfect for high volume commercial venues. Aside from its hopper capacity, Mythos Plus is unique amongst Eureka grinders for its titanium blades and built-in dynametric tamper which saves time and improves extraction with every shot.

PROSUMER

ESPRESSO (STANDARD-USE)

The first grinder from Eureka's outstanding Oro range, launched to celebrate a hundred years of Eureka. The MIGNON ORO XL offers unprecedented performance for a prosumer grinder due to its 65mm burrs and upgraded motor ensuring almost 3g per second of output. Perfect for smaller commercial venues and coffee connoisseurs who demand the best at home.

TECHNICAL SPEC

Basic Information	
Brand	Eureka Oro
Type	On-Demand
Hopper Size (kg)	0.3
Colours	Black Chrome
Burrs	
Type	Flat
Diameter (mm)	65
Material	Diamond Inside
Output	
Daily (kg)	1.5 – 2
Per Second (g)	2.3 – 2.8
Dispensing System	
Display	Yes (Touch)
Dose Counter	Yes
Engine	
Traction	Direct
RPM	1,650
Power (w)	320
Dimensions	
Height (mm)	380
Width (mm)	120
Depth (mm)	180
Weight (kg)	7.2

FEATURES

- **Diamond inside burrs**
Guarantees superior wear resistance and duration preserves optimal burr sharpness for longer than any other burr materials.
- **Touch screen** (2 doses + continuous)
- **Silent Technology**
Reduces the grind noise compared to similar specification grinders.

MIGNON SPECIALITA

PROSUMER

ESPRESSO (STANDARD-USE)

Our most popular prosumer grinder – and with good reason. Its compact size matched with 55mm hardened steel burrs means that Eureka’s MIGNON SPECIALITA suits any smaller commercial venue or home kitchen; but it truly excels in speciality coffee shops. Even better, it is available in a range of vivid colours, ensuring there’s a Mignon Specialita to suit every taste.
